EDUCATION

Thammasat University (2021-2025)
Data Science and Innovation
GPAX: 3.06

ABOUT ME

Date of Birth : 1 May 2001
Age : 24
Marital Status : Single
Military Status : Exempted

LANGUAGES

- Thai
- English

OTHER

- Certificate
- SY0-701-CompTIA Security+

EXPERIENCE

- **(6 January 2025 - 2 May 2025)**
Internship : Bank for Agriculture and Agricultural Cooperatives (BAAC)
Construction Site : Bang Khen Branch, Bangkok
 - Position : Trainee
 - Department : Data Governance
 - Duty : Built an internal DataHub to centralize access to scattered data across multiple source, enable employees to easily search, find and use organizational data from one place. Improved data accessibility, reduced search time and data quality management.

GRADUATION PROJECT

- **Phishing Email Detection using LLMs: RAG vs Standalone**
Developed and evaluated a system to detect phishing emails by comparing two approaches: standalone LLM vs LLM with Retrieval-Augmented Generation (RAG). Used text embeddings stored in ChromaDB, with performance evaluated using Accuracy, BLEU and ROUGE-L scores. The project demonstrated improved accuracy with RAG-enhanced models in identifying phishing content from real-world email datasets.
- **Thai HR Policy Chatbot for Thammasat University**
Built a Thai-language Q&A chatbot for university staff and students to ask questions about HR rules and university regulations. Used OCR to extract text from official PDF documents, processed with RAG and stored vector embeddings in ChromaDB. Implemented using Typhoon LLM for Thai language support and compared performance against Pathumma models using BLEU and ROUGE-L metrics. Improved accessibility to HR information and reduced manual workload for staff.

SKILL & TOOLS

Operating System:
Windows

Programming Language:
Python, JavaScript

Order Software/Tools:
Microsoft Word, Excel, Power Point,
Docker, Kali Linux, Cisco, VScode,
Canva
